ICONICAL COLLECTION
The Iconical Collection presents those pieces that interpret and keep alive and throbbing the desecrating spirit of radical design. It's masterpieces of Italian design that have already gotten into the collective imagination, as well as new domestic sculptures that - language and identity-wise - show elective affinity with those products that are displayed in the most important museums in the world. These pieces of interior design - realised exclusively by hand - represent the magical encounter between art and design that is part of Gufram's DNA.
